JOIN OUR FLOCK

We are a non-profit organization that builds, maintains, promotes and protects this magnificent destination. But we build more than just trails. We build community through education, outreach, environmental stewardship, and

economic development in our region. The Eagle Trail is funded, in part, by the Schoharie Economic Enterprise Corp, but relies significantly on charitable gifts from businesses and friends like you. Consider a donation and help support our mission.

ABOUT THE EAGLE TRAIL

The Schoharie County Eagle Trail is an accessible bird watching route designed to entertain and educate visitors on the flourishing eagle population in Schoharie County, upstate New York. While on the trail, visitors will be directed to explore the heart of Schoharie County, seeing the area's stunning beauty, supporting our local economy, and perhaps most importantly, becoming better informed on our national bird and our community ties to Native heritage.
